

本项目以**地方政府网站**作为第一优先级

以2018年漳州市人民政府网为例：

1. 先找到城市对应的人民政府网url

2. 找到**漳州要闻**栏目

3. 在选项里找到2018年对应的起止条数，此时903页为最开始的时间，762页为截至时间

The screenshot shows the official website of the Zhangzhou People's Government (www.zhangzhou.gov.cn). The main navigation bar includes links for the State Council, Provincial Government, Municipal People's Congress, Municipal CPPCC, Activity Calendar, Simplified Chinese, Traditional Chinese, Login, and IPv6 support. A banner at the top displays the city skyline and current weather information (February 27, 2024,星期二, 漳州 多云 16.4°C). The 'Zhangzhou News' section is highlighted with a red box. Below it, a sidebar lists news categories: 'Zhangzhou News' (selected), 'Departmental Dynamics', 'County (District) News', and 'Image News'. The main content area lists news items from January 2018 to December 2017, with the first item being 'Zhangzhou 11 county-level supervision committees fully established'.

| 新闻标题 | 发布日期 |

| 市委书记檀云坤到天宝香蕉海调研 | 2017-12-31 |

4. F12选择最右边的小箭头，点开任意条目，查看a元素的href属性并点击

The screenshot shows the 'Zhangzhou News' page with a news item about 'Ren Juntao's visit to the repair site of the ancient dragon bridge' highlighted with a red box. The browser's developer tools (F12) are open, showing the element inspector with the href attribute of the selected link: "/cms/sitemanage/article.shtml?id=e20416813021630000&siteid=620416811998440000". The styles tab shows the CSS rules for the highlighted element.

```
html body div#middle div.middle_main_w_1300 div.mid-item.clearfix div.item-right div.item-right-list ul#resources li a
```

```
Element Console Sources Network Performance Memory Application Security Lighthouse Recorder Performance Insights Web Scraper
```

```
Styles Computed >
```

```
.filter : hover .cls +, 6
```

```
element.style { }
```

```
middle middle_main_w_1300 a, middle li { cursor: pointer; }
```

```
item middle_main_w_1300_right-list ul li a { width: calc(100% - 12px); display: inline-block; white-space: nowrap; }
```

5. 那么红圈内的前缀跟4中的href就组成了详情页的链接。记住这个baseUrl

6. 在详情页F12打开开发者工具，选择此页内容，可以看见所有文本都是包含在id为Content的div中

The screenshot shows the developer tools in a browser, specifically the 'Elements' tab. A red box highlights the 'Content' div with the ID 'Content'. This div contains all the textual content of the page, such as the title and the main article text. The browser address bar shows the URL: zhangzhou.gov.cn/cms/siteresource/article.shtml?id=620420759221550004&sited=620416811908440000. The page content includes a video player, a title, and a main text block. The main text block is enclosed in a red box, indicating that all text is contained within the 'Content' div.
